

The FAA Safety Team presents:

# **Cultivating a Safety Culture in Every UAS Enterprise**

All operators of unmanned aircraft systems (UAS) have an obligation to ensure their flight activities are safe for the people, property, and aircraft around them. Professional UAS organizations can do this most effectively by adopting safety management systems (SMS) to enhance operational safety, minimize risk, and increase mission readiness. A UAS SMS is a systematic way of identifying hazards and implementing controls while maintaining efficiency and increasing reliability of UAS technology. By effectively employing industry best practices for SMS, the UAS organization establishes a framework to identify hazards and implement controls, implement effective crew resource management across all levels of the organization, correct irregularities in reporting and training, and establish continuous improvement programs. This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2017. These sessions are FREE to all HELI-EXPO 2017 registered attendees and exhibitors.

Attend at least six Rotor Safety Challenge sessions at HELI-EXPO 2017 and receive a certificate of recognition for completing the 2017 HAI Rotor Safety Challenge.

Take the Safety Challenge in three simple steps:

1. Select safety sessions to attend from the HAI

## Event Details

**Wed, Mar 8, 2017 - 09:15 CST**

**Kay Bailey Hutchison**

**Convention Center**

650 S Griffin St

Hall C

Dallas, TX 75202

**Contact: HAI**

**703-683-4646**

Select #: EA2572400

Representative Anne Nevel

Rotor Safety Challenge Schedule. To see the full Safety Challenge schedule, visit <http://www.rotor.com/takethechallenge>.

2. At the conclusion of each session, receive an official token from the room monitor or presenter.

3. Once you have earned at least six tokens, drop by the HAI Safety Committee Booth on the show floor, turn in your chips to a committee member, and immediately receive a certificate of recognition.

For more information and questions contact HAI at 703-683-4646, [education@rotor.com](mailto:education@rotor.com), or visit: <http://www.rotor.com/takethechallenge>.

**Directions:** Hall C

**A message from the National FAASafety Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
